

TotalTransact Payment Suite

An Affordable All-in-One Payment Processing Solution for Businesses of All Sizes

With so many payment options available to your clients today, it's difficult to provide the convenience customers demand, and the control you need.

Manage Your Finances Better & Improve Cash Flow

TotalTransact offers a solution that enables your customers to make payments conveniently from a variety of methods, making it easy for you to manage and control multiple streams of incoming payments.

- Manage your account online anytime, anywhere
- Improve efficiency and accuracy by replacing manual processes with an automated electronic payments solution
- Speed up your receivables by providing a variety of payment options for your customers
- Process payments at the point-of-service
- Electronically deposit paper checks to your bank account without leaving the office using remote deposit capture

Easy to Install & Works with Your Existing Bank Account

- We'll have you up and running in as little as two business days
- Works with your existing bank account – no need to change banks.

Save Time, Money & Increase Profitability

Many businesses don't invest in innovative technology because it can be costly. TotalTransact costs less to acquire, operate, and maintain than self-hosted solutions.

- Choose a plan that fits your business needs with low monthly payments and transaction costs based on usage
- Reduce expensive bank transaction costs with our competitive pricing plans

Safe, Reliable & Secure

When customers make payments, they want assurance that their account information is safe.

- Eliminate fraud by entering card information for tokenization in our secure system
- Our solution is PCI compliant and we participate in the VISA USA Cardholder Information Security Program.

Key Benefits

- Improve cash flow
